

**Resolution 2025-04
of the Board of Directors of the**

**NORTH SAN JOAQUIN WATER CONSERVATION DISTRICT
Amending 2025 Water Rates for Surface Water**

WHEREAS, North San Joaquin Water Conservation District is preparing to deliver surface water for irrigation to the South System, North System and Tracy Lake Improvement District during 2025.

WHEREAS, the District conducted a Proposition 218 proceeding regarding water rates in December 2014-January 2015. The Engineer's Report proposed maximum water rates as follows:

South System — with delivery of 3,000 af	\$104.41
South System — with delivery of 6,000 af	\$81.60
Tracy Lake System	\$3.10 (over and above operation and maintenance assessment)

The report did not address the North System because it was not operational at the time.

WHEREAS, thereafter the District formed Improvement District No. 3 to include landowners along the South System who desire to use surface water for irrigation and voluntarily agreed to assess their lands \$500 per acre to cover facility costs.

WHEREAS, the South System has been substantially improved since 2015 with a new pump station and a second pump will be added this year and there is insufficient data at this time to establish new cost of service rates. The North System has also recently been improved with a temporary pump and landowners have requested water.

WHEREAS, the District has been informed by EBMUD that it will not receive water under its permit 10477 for the 2025 irrigation season but may be able to purchase water from WID.

WHEREAS, the District desires to cover costs of service and incentivize landowners to maximize the use of surface water to alleviate groundwater overdraft conditions.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The 2025 Water Rates for the District shall be:

South System Landowners within ID3 \$40.00 per acre-foot

South System Landowners within ID3A \$40.00 per af plus \$60.00 per af for pump out of Pixley Slough with District facilities

North System Landowners and South System Landowners not within ID3 \$80.00 per acre-foot

Tracy Lake System \$3.10 per acre-foot (over and above the operation and maintenance assessment required by existing agreements)

All Landowners Purchased Water Surcharge: \$36.57/AF.

North System Landowners once ID4 is formed will be established once the ID is formed

Moved by Director Colombini, seconded by Director Colburn, that the foregoing resolution be adopted.

Upon roll call the following vote was had:

Ayes: 4 Directors

Noes: 0 Directors

Absent: 1 Directors *Stark*

Abstain: 0 Directors

The President declared the resolution adopted.

I, Brady Colburn, Secretary of the Board of Directors of the NORTH SAN JOAQUIN WATER CONSERVATION DISTRICT, do hereby CERTIFY that the foregoing is a full, true and correct copy of a resolution duly adopted at a regular meeting of the Board of Directors held the 30 day of June, 2025.
